## THE POWER OF PROBIOTICS

Probiotics contain viable micro-organisms. When ingested in sufficient quantities, they have a beneficial effect on the health of poultry.

Probiotics help prevent and relieve digestive problems in poultry. Chick'A, the specialist poultry brand, guarantees you a quantity of live, active cultures of stable strains that reach the intestine alive: very good acid resistance, heat resistance, good storage stability.

We offer you one of the most stable cultures on the market via a patented thermo-positive treatment, with an extended shelf life of 2 years.

**Product benefits : Particularly high appetency, unique on the market.**

### ZOOTECNICAL ADDITIVES :

intestinal flora stabilizer *Bacillus velezensis* (4b1820) 3 x 10<sup>11</sup> CFU/kg

### NUTRITIONAL PHYSIOLOGICAL ADDITIVES :

Calcium 80.3 g/kg, Magnesium 600 mg/kg, Potassium 4500 mg/kg, Sodium 200 mg/kg, Phosphorus 2400 mg/kg, Vitamin D (3a670a) 500 IU/kg, vitamin E (3a700) 20 mg/kg, vitamin K3 (3a711) 0.62 mg/kg, vitamin B1 (3a821) 0.5 mg/kg, vitamin B2 (3a825ii) 1.25 mg/kg, vitamin PP (3a315) 8.75 mg/kg, pantothenic acid (3a841) 3.75 mg/kg, vitamin B6 (3a831) 1.25 mg/kg, biotin (3a880) 25 mcg/kg, vitamin B9 (3a316) 0.4 mg/kg, vitamin C (3a300) 25 mg/kg, iodine (3b202) 0.5 mg/kg, copper (3b410) 5 mg/kg, manganese (3b510) 15 mg/kg, zinc (3b610) 10 mg/kg, iron 130 mg/kg

### FEEDING ADVICE :

Give 12g / kg feed over the feed per day. Equivalent to 1.5g per day for a 2.5kg chicken with 120g feed. The enclosed measuring spoon holds 7.5g, which corresponds to 5 servings (5 days / chicken or 1 daily dose for 5 chickens). If necessary, increase dosage by 1 measuring spoon.

**Suitable for permanent use.** An optimal result is achieved with regular and long-term use.

### SHELF LIFE :

2 years from production date. Store dry at room temperature.
