

Instruction

Model: 129510

The Mosquito Trap is a safe and environmentally friendly way of controlling blood sucking, biting and stinging mosquitoes. Our Mosquito Trap attracts the mosquitoes and other insects by special and high luring efficiency LED tube and simply drowns them into the bottom net trap by a powerful DC fan and will be dying from dehydration without the use of chemical or poisons. This is not a zapper. Once they are in the capture net, they can not escape with the anti-insect escape system and will slowly die of dehydration. It is non-toxic and eco-friendly. Indoor use only, like houses, sitting room, living room, bedroom, children room, office, etc. The very beautiful design makes the device not just only the Mosquito Trap, but also an elegant lighting decoration.

Warning:

- This unit is strictly to be used in indoor.
- Keep it away from the children.
- Do not insert foreign metal object into the unit.
- Do not submerge the device into water or other liquids.
